

Product Hilites

Advantages of Stellar Technology's **Dual Output Pressure and Temperature Transducers**

- All welded stainless steel construction
- Separate outputs for pressure and temperature
- Analog (mV/V, 4-20 mA, 0-5 Vdc, 0-10 Vdc) or digital (CANbus, RS232, RS485) outputs
- Intrinsically safe and explosion proof designs available
- Customer specified probe lengths
- Customer specified process connections
- Customer specified electrical connections
- Vibration and shock protected
- Compact size

Benefits:

- Reduced installation and operating costs
- Inventory reduction savings
- Increased process measurements
- Space reduction
- Compatibility with existing control systems
- For digital bus installation -- dual addresses for one sensor installation
- No thermowell

Applications:

- Refineries and process plants
- Industrial automation and control
- Onshore and offshore nitrogen skids
- Oil and gas well stimulation equipment
- Gas compressors
- Radiation laboratory control systems
- Food processing systems
- Dynamometer test systems
- Engine diagnostics
